## Adjustable V-Race

- Manufactured from Galvanised Steel
- Fully sheeted
- The 'V' profile minimises the chance of small stock turning around in the race.
- Races have a fully sheeted outer arc (prevents legs and heads getting out, and improves stock flow)
- Races are made without overhead bracing. This eliminates the danger of an operator getting his arm caught between the yard and beast.

### 2 or 3 Way Sheep Draft gate

- Assisting to process a large number of stock at a faster rate, improving productivity.
